

Homework 08

Guidelines for homework assignments:

- All homework assignments should be neatly written with answers to questions presented in numerical order. Make sure that you attempt problems starting at the top of the sheet proceeding downward. Have enough empty space between one problem and the next.
- Be sure to answer all parts of each question.
- Your answers must contain detailed work and explanations for your steps. This is a MUST. 50% of credit will be deducted from your score if no detailed work is shown. To get full credit, you must show all your work.
- Your submission must be in PDF format, any other formats will not be accepted on Canvas.
- Late submission is not accepted.
- Email submission is not accepted. You must submit your homework assignments on Canvas.
- Your instructor will deduct points if your answer is hard to understand because of poor grammar or poor handwriting.

P01. Turning Machine (15 points)

- (10 points) Trace the execution chains of the following input strings on this machine: “**aba**” and “**ababb**”.
- (5 points) The language accepted by this TM is all words with an odd number of letters that have *a* as the middle letter. Show that this is true by explaining the algorithm the machine uses and the meaning of each state.

**P02. Turning Machine (15 points)**

Build a TM that accepts the language of all words that contain the substring *bbb*.
